

It is with great sorrow that we offer our condolences on the unexpected death of one of our own, Emeritus Professor Zhubin Ghayoor, to his family, and also professors, students and industrial engineering graduates of Iran.

Mr. Ghayoor devoted his life to educating industrial engineering students, helping to uplift Iran's industrial engineering community for several decades in roles such as vice-chairman of education affairs of Sharif University of Technology's Department of Industrial Engineering. We ask God's infinite divine mercy for this great teacher and patience & health for his family and those grieving him.
